MANAGEMENT DISCUSSION & ANALYSIS

Company overview:

Management presents herein the industry overview, opportunities and threats, initiatives by the Company and its overall strategy for the future. This outlook is based on the assessment of current business environment, which may vary due to the future economic and other developments both in India and abroad.

A. Industry Structure & Development

The refractory industry is a critical backbone supporting high-temperature manufacturing sectors, primarily iron and steel, cement, glass, and non-ferrous metals. Refractories are essential industrial consumables, meaning their demand is directly tied to the capacity utilization and growth of these core infrastructure sectors.

Over the past year, the industry has seen shifts due to volatile raw material pricing, supply chain constraints, and an increasing push toward energy-efficient, high-performance refractory materials. As core manufacturing sectors expand, the long-term outlook for the refractory industry remains stable, driven by industrial infrastructural demand.

Fortune of your Company which is in refractory industry is directly linked to the performance of Steel Industry as it is the largest consumer of refractory products. The other consumers of refractory products are Cement, Copper, Glass, Aluminum and Petro-chemical industries etc. which are witnessing reasonable growth, India's steel industry is in a sustained expansion phase driven by government infrastructure investment (railways, highways, bridges, housing) and manufacturing capacity additions under PLI schemes. Steel production has grown from 110 MMTPA in FY20 to 180 MMTPA in FY26, and the government targets 300 MMTPA by FY30. Each tonne of steel produced requires approximately 8-12 kg of refractory materials.

Products of Raasi Refractories are manufactured at its manufacturing facility at Hyderabad, in Telangana. The Company has ongoing programs for improving efficiency and effectiveness of its manufacturing processes, raw material cost, energy conservation, control over working capital and to produce special refractories at low cost so as to add maximum value to the customers. Energy efficient installations have been made at the factory. Best in class safety measures and processes have been put in place and improved upon at the factory and all working sites.

B. Opportunities & Threats Opportunities

The refractories industry largely follows trends set by its main driver, the steel industry. Iron and steel production is responsible for up to 70 % of the total demand for Refractories; therefore, the profitability of the refractories industry as a whole is strongly influenced by steel production levels and steel plant investments.

Consequent technology advancement in steel making processes, major opportunity lies in manufacturing of continuous casting refractories, special monolithics viz. Castables; Plastic based ramming mass and gunning materials, etc. The Company is having its vision in line to this technology change. Demand for refractories has increased substantially due to increased steel and Aluminum production in India.

Threats

Competition in refractory industry is building up. Lot of consolidation and re-organization is taking place in refractory industry. Input costs mainly the increase in cost of raw materials is also a cause of concern for refractory industry. Cost reduction measures will play an important role in keeping the unit viable in the face of stiff competition. Your Company has taken several cost reduction measures for improving operations to bring down the cost of production and is hopeful to successfully meet the challenges of competition. Further the company is continuously pursuing for some large orders from the consumers in India.

Your Company is taking steps to take on the challenges and strengthen its brand image in neighboring states as well as in Telangana where the company is already a brand leader. Power remains another major threat to the industry. Severe power shortage and high cost of power in the State has rendered most of the factories very non remunerative.

C. Segment or Product Wise Performance

Your company operates in only one business segment and one product which is manufacture and sale of refractories. Consequently, there are no separate reportable secondary segment under Ind AS 108. All operation focus and capital allocation are directed entirely toward strengthening our market position in core product profile.

D. Outlook

Market outlook in future for refractory seems good. Per capita consumption of steel in India is being far below in comparison to the international standards. It is expected that the demand for increase of domestic steel production will be robust and this will have positive impact in refractory consumption. Growth in real estate and consumer durable sector will lead to increase in cement, glass and special alloys production. This will also necessitate use of better quality refractories. Your Company's effort to keep pace with changing technology which offer superior product will ensure not only retention of existing business but also increase the business volume wherever such products are used.

E. Risks & Concern

Indian refractory manufacturers are dependent on China for key raw materials like Bauxite and Magnesite. Clogged logistical network and lack of transportation facilities are taking toll on timely delivery of raw material. It is very difficult to comment on forecast, even to comment on short term outlook is difficult because of Government's action which are changing the situation on day to day basis.

Another major area of concern is availability of adequately qualified and competent workforce. The Industry is facing countless difficulties both in terms of increasing raw material and other input costs as well as the availability, further the negotiating power of the refractory makers is poor mainly due to their size as it caters to the industries which is far bigger in sizes like aluminum, steel, cement etc.

F. Internal control systems and their adequacy

Your Company has adequate internal Financial controls commensurate with its size and nature of business which are reviewed periodically. The internal auditors of the Company conduct regular audits as per approved plan and the Audit Committee reviews periodically the adequacy and effectiveness of internal control systems and takes steps for corrective measures whenever required.

G. Discussion on Financial Performance with respect to Operational Performance

During the financial year ended March 31, 2026, your Company navigated intense market dynamics to deliver stable top-line growth:

- Total Income: Reached Rs. 5,911.40 lacs, representing a notable expansion from Rs. 3,672.88 lacs in the previous financial year.

The management remains focused on optimizing capacity utilization at our manufacturing works in Narketpally to systematically rebuild our equity reserves

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current year. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In our professional judgment, we have determined that there is no key audit matter to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

5. The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, Standalone Financial Statements and our auditor's report thereon.

6. Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
7. In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

8. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.
9. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
10. The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

11. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
12. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - 12.1 Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks,

and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 12.2 Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- 12.3 Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 12.4 Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 12.5 Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
13. Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.
14. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
15. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
16. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

**Annexure "B" to the Independent Auditor's Report of even date on the Standalone
Financial Statements of Raasi Refractories Limited**

**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of
Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Raasi Refractories Limited as of 31st March 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A

company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note – 24**Notes forming part of the financial statements****A. Corporate information**

Raasi Refractories Limited is incorporated on 24th December, 1981 and is engaged in manufacture and Sale of refractory Bricks. The Company is a Listed Public company head quartered in Hyderabad, Telangana.

B. Significant Accounting Policies:**1. Basis of preparation of financial Statements:**

The financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") notified under the companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendments Rules, 2016 and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

2. Use of Estimates:

The preparation of financial statements requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as on the date of the financial statements and the reported income and expenses during the reporting period. The estimates and assumptions used in the financial statements are based upon the Management's evaluation of the relevant facts and circumstances as on the date of financial statements. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results may vary from these estimates.

3. Property, Plant & Equipment:

All items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost of acquisition is inclusive of purchase price, levies and any directly attributable cost of bringing the assets to its working condition for the intended use. Subsequent costs are included in the asset's carrying amount or recognised as separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the company and cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit and Loss during the reporting period in which they are incurred. Depreciation on Fixed Assets is provided on straight line method at the rates based on the useful life of the asset in the manner prescribed in Schedule II to the Companies Act, 2013. Capital work-in-progress comprises cost of fixed assets that are not yet ready for their intended use at the year end.

4. Impairment of Assets:

The carrying amounts of assets are reviewed at each balance sheet date to ascertain impairment based on internal / external factors. An impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is higher of the net selling price of the assets and their value in use.

5. Leased Assets:

Operating Leases: Rentals are recognized as an expense with reference to lease terms and other considerations.

6. Borrowing Costs: In accordance with the requirements of Indian Accounting Standard 23 (Ind AS 23), "Borrowing Costs", borrowing costs attributable to acquisition/construction of a qualifying asset (i.e. an asset requiring substantial period of time to get ready for intended use or sale) are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Pre-operative expenses incurred during construction period are capitalised, where appropriate. Interest expenditure has been accounted using effective interest rate method.

7. Financial Assets:
I. Initial recognition and measurement:

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchase and sale of financial assets are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

II. Subsequent measurement:
a) Financial assets carried at amortised cost (AC):

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial assets at fair value through other comprehensive income (FVTOCI): A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c) Financial assets at fair value through profit or loss (FVTPL):

A financial asset which is not classified in any of the above categories are measured at FVTPL. For trade receivables, Company applies 'simplified approach' for recognition of impairment loss allowance on the trade receivable balances. The application of simplified approach require the Company to recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses historical default rates to determine impairment loss on the portfolio of trade receivables. At every reporting date these historical default rates are reviewed and changes in the forward looking estimates are analysed.

8. Financial Liabilities:
I. Initial recognition and measurement:

All financial liabilities are recognized at fair value and in case of loans, net of directly attributable transaction costs. Fees of recurring nature are directly recognized in the Statement of Profit and Loss as finance cost.

II Subsequent measurement:

Financial liabilities are carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

9. Derecognition of financial instruments:

A financial asset (or a part of the financial asset) is derecognized from the Company's balance sheet when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of the financial liability) is derecognized from the Company's balance sheet when the obligation under the liability is discharged or cancelled or expires.

10. Cash and cash equivalents:

Cash and cash equivalents consist of cash at banks and on hand, demand deposits and other short-term deposits that are readily convertible into known amounts of cash, are subject to insignificant risk of changes in value and have a maturity of three months or less.

11. Inventories:

Inventories consist of raw materials, stores and spares, work-in-progress and finished goods are measured at the lower of cost and net realisable value after providing for obsolescence. The cost of all categories of inventories is based on the weighted average method. Cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

12. Impairment of non-financial assets:

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated to determine the extent of impairment if any.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit.

13. Provisions, Contingent Liabilities and Contingent Assets:
I. Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

II. Contingent liabilities

A contingent liability is disclosed when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

III. Contingent assets

Contingent assets are not recognised in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

14. Revenue Recognition:
I. Sale of Goods:

Effective 1st Apr, 2018 the Company has applied Ind AS 115. This comprehensive new standard will supersede existing revenue recognition guidance, and requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs can be estimated reliably, there is no continuing effective control or management involvement with the goods, and the amount of revenue can be measured reliably. Revenue from sale of goods is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms and excluding taxes or duties collected on behalf of the government.

II. Interest Income:

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and effective interest rate applicable.

15. Taxation:

Provision for taxation is made for both current and deferred taxes.

a) Current Tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Entity's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

- b) **Deferred Tax:** Deferred tax assets and liabilities arising on account of timing difference and which are capable of reversal in subsequent periods, are recognized using the tax rates and tax laws that have been enacted or substantively enacted as on the Balance Sheet date. Deferred Tax Assets are recognized and carried forward only if there is a virtual certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each Balance Sheet date.

16. Employee Benefits:

A) Short Term Employee Benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

B) Post-Employment Benefits:

I. Defined Contribution Plan: A defined contribution plan is a post-employment benefit plan under which the Company pays specified contributions to a separate entity. The Company's contributions to defined contribution plans are recognised as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service.

II. Defined Benefit Plans :

The liability in respect of gratuity benefit is determined using the Projected Unit Credit Method based on actuarial valuation, performed by an independent qualified actuary. Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.
