

RAASI REFRACTORIES LIMITED (RRL)

A MESSAGE TO OUR STAKEHOLDERS

Raasi Refractories Limited (RRL) remains steadfast in its position as a leading manufacturer of high-quality refractory bricks and allied products. Operating from our expansive **100-acre production facility** in Narketpally, near Hyderabad, we continue to leverage our deep industry experience to serve the evolving needs of the global industrial sector.

Our Strategic Commitment

Our mission is clear: to provide **high-quality refractory and allied products** to our users at the most reasonable cost. We understand that the durability and efficiency of your operations depend on the integrity of the materials used, and we are committed to being your most reliable partner in this endeavor.

Diverse & Specialized Product Portfolio

RRL offers a comprehensive range of solutions designed for extreme industrial environments:

- **Basic Refractories:** Including Magnesite, Chrome Magnesite, and Alumina spinel bricks.
- **Fire Clay & High Alumina:** Specialized products for blast furnaces, stoves, and casting pits.
- **Monolithics & Insulation:** A wide array of castables, ramming mixes, and mortars with advanced hydraulically and ceramically setting properties.
- **Specialized Innovations:** Our portfolio includes high-performance items such as Zircon and Alumina Carbon Nozzles, Silica Bricks (99%), and Ultra Low Cement Castables.

Looking Ahead

As we move forward, Raasi Refractories Ltd. continues to focus on operational excellence and product innovation. We thank our shareholders, partners, and clients for their continued trust as we strive to set new benchmarks in the refractory industry.
